

Edelman[®] Leather

Your Vision Our Know-How

Like furnishings and décor, doors should complement your home's unique architecture and individual style. TruStile Doors provide you the ultimate flexibility, offering unique design options including accents of metal, glass, resin, leather; common arch pairs and built-in mirrors — just to name a few.

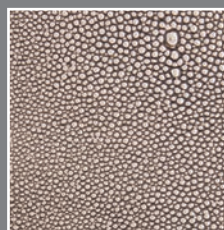

Chemetal[®] Inserts

Glass & Resin

Choose to substitute any panel or rails with the finest material accents

TruStile offers the latest trends in architectural glass, resin, leather and metal to enhance the appearance of your doors.

Common Arch Pairs

Rather than placing two matching doors side by side, common arch pairs carry details across both doors, such as curved panels and rails. The end result? The doors actually look like they were made for the opening.

Full-Length Mirrors

TruStile mirror doors add a new dimension to any space. Our mirror doors are a perfect space-saving solution for bathrooms, closets, dressing rooms and other applications where a full-length mirror is required on one side.

Architecturally-Correct Pocket Doors

TruStile offers a “pocket stile” and “pocket top rail” option for pocket door applications. This option provides one stile plus the top rail that is 1” wider than the other. This allows 1” of the door to remain in the pocket when the door is fully closed, creating the appearance of a symmetric door thus matching the other TruStile doors in the house.
