

TruStile Doors AIA/CES Course

Balancing Budget , Function and Design for Commercial Openings

Program #TRU004

1 LU Hours, 1 HSW Credit

Have you ever wanted to increase the design impact of your commercial door openings? This new AIA/CES program from TruStile Doors will give participants a strong understanding of the critical aspects of commercial openings that must be considered when attempting to balance budget, function and design. After this course participants will be better equipped to design and budget an opening that meets their design objectives.

At the completion of this course, participants will be able to:

1. Understand the requirements of Life Safety Codes for door openings and their effects on budget and design
2. Understand the requirements of ADA Standards for door openings and their effects on budget and design
3. Understand the effects of STC door openings on budget and design
4. Understand the effects of design, grade, construction, and material on the door and hardware budget
