

## Design that Complements the Planet

Our modern, domestic plants use lean manufacturing practices to make extremely efficient use of our raw materials. This minimizes waste and environmental impact.

## 69% Recycled MDF Doors for Painted Applications

TruStile MDF doors are not only the highest quality paintable doors on the market, they are also the responsible environmental choice. We recycle MDF waste, donating it to agricultural partners who use it to create energy, reducing both landfill waste by 65% and waste pick ups, putting fewer trucks on the road. The green benefits of our MDF doors include:

- Certified by SCS Global Services to be constructed of 69% recycled content
- Contribute to LEED® credits
- Manufactured with low-emitting adhesives and coated with low-emitting primer
- Standard MDF is low emitting, meeting CARB (California Air Resources Board) requirements.
- A no-added formaldehyde MDF is available

MINIMUM 69% RECYCLED CONTENT  
PRE-CONSUMER

## FSC® Certified Wood Doors for Stained Applications

Most TruStile wood doors are available with FSC certification. FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. The green benefits of our FSC certified wood doors include:

- Third party certification that all door materials originate from responsible sources
- 100% of door value contributes towards the LEED credit for Certified Wood Products
- Manufactured with low-emitting adhesives
- Available for a nominal upcharge from our non-certified wood species

The mark of  
responsible forestry
